

# To Be is to Matter

A reflection on the power of presence and possibility. Keep scrolling...

# The Ancient Question

Do you have to exist to be?

A question of physical presence

Or be to exist?

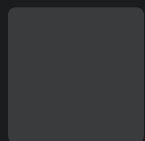

A matter of conscious intention

What if being starts long before the world sees you?

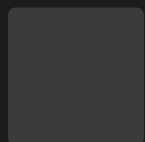

# The Visibility Trap

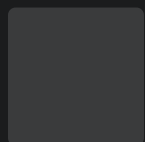

Likes

Credentials

Productivity

Approval

In today's world, existence = visibility. But is that the whole story?

# The Essence of Being

You dream

You love

You speak truth

You imagine

To be is to choose intention. Being is presence —  
even in silence.

# You Matter Before Recognition

1

Vision precedes success

2

Authenticity before applause

3

Fire exists before form

# The Cycle of Existence

1

Being

Your internal state

2

Becoming

Your transformation

3

Existing

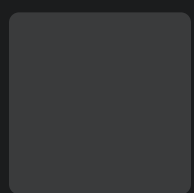

Your manifestation

"The universe didn't ask for credentials when it filled your lungs with breath."

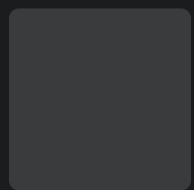

RISE ABOVE

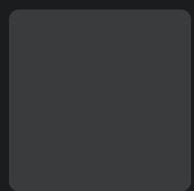

# Stand in Your Truth

Even if the world doesn't yet see

Even if the metrics don't yet show

Even if the form hasn't yet arrived

You are because you  
exist. You exist because  
you are.

Because your being has power beyond measure.
